Threatening Situation Between the United States and Spain.

CRISIS EXISTED FOR THREE HOURS.

Consul General Lee's Firm Stand in Protecting a Mexican Citizen Aboard an American Vessel.

THREAT MADE BY GEN. WEYLER.

If the Vessel Attempted to Go to Sea With the Mexican on Board She Would Be Sunk by the Guns of Moro Castle-General Lee Told the Captain of the Vessel to Proceed to Sea, and Added: "If the Guns of Moro Castle Siuk Your Ship American Warships Will He Bombardlng Havana lu a Few Days"-Spanlsh Authoritles Black Down After the Guns of the Fort Had Been Turned on the Outgoing Vessel-General Weyler Furlous Over the Episode-More Spanish Barbarlties Reported-Fillbustering Expeditions Safely Lauded-Other Cuban War News.

NEW ORLEANS, Oct. 20.—The Times Democrat's Key West special says: If the Spanish authorities had taken Sener Angel Fernandez off the Ward liner Vigilancia, while that vessel was in Havana harbor last Friday, United States warships would have immediately been ordered to Havana to enforce a demand for reparation, and war between this country and Spain would have undoubtedly resulted.

For three hours last Friday the United States and Spain were on the brink of war, and the threatening situation was only relieved when the Spanish authorities ignominiously backed down and allowed the Vigilaneia to proceed to sea with Fernandez still on

A letter received here from a correspondent in Havana who is close to Consul General Lee, gives a dramatie aecount of the episode.

According to the letter, when the Vigilancia put into Havana, the Spanish authorities demanded the surrender of Senor Angel Fernandez, a Mexican. on board the vessel. The Spaniards alleged that Fernandez was not a Mexican, but a subject of Spain. Captain John McIntosh of the Vigilancia refused to surrender Fernandez. Then the Spanish authorities told McIntosh that if the Vigilaneia attempted to go sea with Fernandez on board, she would be sunk by the guns of Morro castle.

Captain McIntosh immediately laid the matter before Consul General Lee. who complimented the captain for his bravery and told him to take the Vigilancia to sea when he pleased.

Consul Lee was greatly enraged at the threat to sink the Vigihurcia and is reported to have said to Captain McIntosli:

"If the guns of Morro eastle sink your ship, American warships will be bombarding Havana in a few days."

Captain McIntosh returned to the Vigilaneia and Consul Lee informed General Weyler that the vessel was going to sea, and that if nny nttempt was made to take off Fernandez or that if the vessel was fired upon Spain must take the consequences.

Weyler immediately summoned a cabinet council, and while this council was considering the matter the Vigilancia began to weigh anchor. The Spanish officials on board protested, but Captain McIntosh said in vigorous language:

"D-n your objections; my ship has been cleared. My consul has told me to go to sea. I am going, and I dare you to try to prevent me. Get off my ship!"

And with that, the Yankee roughly shoved the Spaniards into the wniting boots and the Vigilaneia, flying the stars and stripes, started for the mouth of the harbor, which is commanded by the guns of Moro eastle.

All was excitement in Havana, and the quays and housetops were lined with hundreds of persons who expected to see the Vigilancia fired upon.

Consul Lee himself watched the Vigilaneia through a glass, meanwhile signals were being exchanged between Weyler's palace and Morro Castle, and in the latter place there were signs of great excitement. Slowly the Vigilancia entered the mouth of the harbor and then it was noticed that the guns of Morro were turned on the ship. The Vigilancia repeatedly signaled Morro Castle: "I am going to sea," but no an- caped without injury.

ONTHE BRINK OF WAR swer came from the fort until the vessel was in blue water, and then the Spaniards ran up the signal which means: "Goodby."

the departure of the vessel and Consul Lee's course. It is stated that Weyler ordered the commandant of Merro to sink the Vigilancia, but that at the last moment he yielded to the entreaties of his cabinet and countermanded the order. The episode eaused more excitement in Havana than anything since the beginning of the war.

CONSUL LEE COMING HOME. He Will Take a Brief Vacation For the Benefit of His Health.

Washington, Oct. 20.—It is intimated in official circles here that although no regular formal leave has yet been issued to General Fitzhugh Lee to absent himself from his post as consul general at Havana, that he has arranged the business of the consul generalship so that it may be safely left, for a time at least, to the eare of Mr. Springer, our energetic vice consul general. It is expected, therefore, that he will soon pay a visit to his home in Richmond.

It is understood from the same sources that General Lee is in no respect dissatisfied with his office, or with the relations that now exist between himself and the authorities at Hayana, but he has undergone a trying and particularly unhealthful season at Havana, while engaged in the discharge of onerous duties and feels the need of recuperation. The visit will, of course, afford an opportunity for Secretary Olney to confer with General Lee as to the present aspect of affairs on the island, but further than above stated, it can not be gathered that the consul general's movements have any significance as affecting the relations between Spain and the United States.

LANDING CARGOES IN CUBA. The Daring Dauntless Is Kept Busy Filling Her Contracts.

CINCAGO, Oct. 20.—A special from Miami, Fla., says: While United States officials have been wondering what has become of the Dauntless since it landed in Cuba the arms taken on at Palm Beach 10 days ago, that vessel has landed another cargo and is now en route and take entire possession of the place. with the third.

It has been learned that the Cubans have a great quantity of arms and amnunition stored on an island in Turtle harbor, south of here, and there the Dauntless has been getting its cargoes, as well as replenishing its supply of eoal and provisions. The stores are taken to the island by sailing vessels.

The Dauntless will not return to port the interest of the cargoes to Cuba

until it has taken five cargoes to Cuba, according to contract with the junta.

SAILED UNDER SEALED ORDERS. The Revenue Cutter Windom Going on a Mysterious Mission.

Baltimore, Oct. 20.—The United States revenue eutter Windom left this port at 9:30 this morning under sealed orders. It is thought that the orders which Captain Hand will open when clear of the cape will instruct him to be on the lookout for filibustering expeditions leaving the Florida coast.

The Windom is a twin screw steamer of light draught and has a battery of rapid-fire guns; also, she has the distinction of being the only United States craft that has left this port under sealed orders in many years.

Still Another Expedition Gets Off. KEY WEST, Oct. 20 .- Another expedition is undoubtedly off for Cuba. On Saturday night the steamer Cora in tow loaded with 200 tons of eoal in sacks left here on a wreeking voyage. But it s now believed she met the steamer Three Friends at Loggerhead Key, about 80 miles from here, and transferred the coal and about 40 tons of dynamite. Dr. Castillo and C. Silva, who have been on former filibustering trips on the Three Friends, arrived in this city Friday very mysteriously, and left on the Mascotte Saturday night for Tumpa. A large crowd of Cubans accompanied them.

ers Opposing the Trust. Anderson, Ind., Oct. 20.-Window glass workers yesterday produced a sworn statement of Newland T. De-Pauw, receiver of the W. C. DePauw Window Glass company, to creditors. His reports says that the plant at Alexandria earned in five months a total of \$30,000, and had it run nine months of this season it would have earned \$75,-000. He states that this was done with the disadvantages of damaged furnaces and some inferior workmen for a time. With such facilities as other factories had he says that the factory could make

REBELS ARE HOLDING THEIR OWN

The Revolution Already Beyond the Control of the Spanish Authorities and Unless Reinforcements Are Sent to Maoilin Immediately the Spanish Forces Are in Danger of Final Defeat.

San Francisco, Oct. 20.—Advices by the steamer Pern from Singapore and Hong-Kong up to Sept. 27 says that the rebellion in the Philippine islands is much more serious than has been generally recognized. It is said the reports of revolutionists' defeats sent out by Spanish officers have been greatly exaggerated and that so far the rebels have more than held their own in the struggle for independence.

It is stated that the revolution is now beyond the control of the Spanish autherities and that unless reinforcements are sent to Manilla immediately the Spanish forces are in danger of final defeat. The rebels now hold the province of Cavite, are well organized and have 8,000 mauser rifles. There are many natives in the Spanish troops and the offleers are afraid to take native regiments into the interior because their loyalty is

The Hong-Kong Press says editorially that there is no longer room for the least doubt that affairs in the Philippine islands will in a short time assume the proportions of the Cuban rebellion. The natives are determined. As each rebel signs an agreement he writes his name on his arm with blood and swears vengeance against the Spaniards.

The story of the original plans for striking the blow is a most serious one. For a long time the natives have been conspiring to overpower the government it was finally decided to make a strong attack on the 15th of July. Governor General Blanco was to have been murdered by one of the natives on that day, and it was arranged to swoop suddenly down upon the body officers who attended the funeral, kill as many possible, then ransack the town of Manilla

It is due to a woman that the plo-was discovered. In confession she diselosed the plot to a priest, who divulged the secret. The arrest and imprison-ment of many natives plainly indicated that the priests were cognizant of the arrangements, and then, toward the end of August, the fighting commenced in real earnest. From that time up to the middle of this month the date of the latest news there were repeated bloody conflicts between the government forces and the natives.

The Manilla correspondent, under date of Sept. 2, denies that the Spanish troops defeated the rebels on Aug. 31. The writer says: "Eight rebels killed at St. Mesa; counted six or eight at San Juan, besides those on the Spanish side. The bodies (rebels) are being left out unburied to rot. Over 100 of them, some say 150, were shirt up in a small room under the Pastino of San Sebastian Intra Muros on Monday night. No water; one small window. Mr. Rublee was born in Berkshire, Vt., in 1829, and came to Wisconsin in his 11th year. He resided in this state continuously, with the exception of a year as editor of the Boston Advertiser in 1878 and eight years as minister to Switzerland during Grant's administration. He served for many years as chairman of the Republican state committee, was editor of the Wisconsin State Journal at Madison for 16 years and in 1880 came to Milwaukee and for a like period has been in control of The Sentinel. Mr. Rublee was one of the most distinguished newspaper writers for scholarly attainments, political leadership and style of expression. He leaves a widow and two sons.

ARMENIANS IN NEW YORK. The Refugees From Boulogne Arrive ou

the Steamer Obdam.

New York, Oct. 20 .- One hundred and sixty-seven Armenians, who embarked at Boulogne, arrived on the steamship Obdam yesterday, and were at once transferred to Ellis island. A SHUTDOWN SURE TO FOLLOW. where they were examined by th health anthorities and the inspector of immigration. There was one family of 16, including husband, wife, children uncle, aunt and consin. The Arme nians, as a rule, were well dressed, intelligent looking and did not appear to have suffered any privation. The refugees were met at Ellis island

by representatives of the Salvation Army and ladies from Women's Christian Temperance union, a representative of the Red Cross Society and sev eral charitably disposed persons. Upon their arrival at Ellis island they were grouped and photographed.

A protest from the residents and tax payers of Honokus county, N. J., was presented to Lv. Senner, commissioner of immigration, at Ellis island, signed by a committee consisting of Saul B Moffatt, Fred Shilling and John Y Dalen. This stated that for some time past, men and women, dressed in th nniform of the Salvation Army, hav been engaged in systematic begging for the aid of a "horde of Armenians, the same being aliens and paupers, and we protest against the said aliens and pau pers being sent into this community.

Another letter was from the Rev. J M. Tromper, pastor of the Christian Re-form church, at Ramseys, N. J., where it is proposed to colonize the Armenian refugees. Pastor Tromper says that he has been requested by his congrega-tion to extend the sympathies of his church and congregation to the movement to colonize the refugees.

Colonel Holland, secretary of the Salvation Army, American relief department, accompanied by Brigadier Fox, editor of The War Cry; Ensign Kemp. Ensign Carabed and two Armenian in terpreters and several members of the Woman's Christian Temperance nuion appeared before the board of special inquiry and stated that the refugees were not panpers and that they would not be colonized at Ramseys. He said, how ever, that Ramseys would be a distrib-uting point and that the Armenians would be drafted from there to farmers and placed on the farms of the Salvation Army officers. Consequently, he said, they would not be pampers, nor likely to become a public charge.

The board of special inquiry referred the matter to Commissioner Senner, who sent the papers on to the secretary

of the treasury.

Twenty-eight men and two women who had a few dollars each, and who were considered desirable persons, were "admitted." They will be sent to Sal vation Army officers in New Jersey. About 180 more Armenians are expected.

EASY TO REACH THE POLE. Mariner's Compass in a Magnified Form Is A. W. Nitch's Idea.

Boston, Oct. 20.—An entirely new scheme looking to acrial navigation and flight has been suggested by A. W. Nitch of 1 Beacon street. It is the idea of Mr. Nitch that the subtle magentic attraction that holds the needle of the mariner's compass with miswerving fidelity to the north can be utilized in a magnified form for man's convenience profit and pleasure.

Accepting the theory advanced that vast deposits of magnetic ore exist in the immediate vicinity of the north pole, and that from there come the magnetic enrrents distributed over the globe, and that it is the attraction of this thus far undonbted field that draws with magic power the needle of the compass, there is nothing, as Mr. Nitch looks at it, to prevent its being made of real service.

"I believe," he said, "that magnets could be suspended in the air of sufficient force to counteract the resistance of the air, overcome the ndverse enr rents, and move more or less rapidly toward the north.'

Mr. Nitch said that it might not prove possible, but it was open to argument and experiment.

THE X RAY POISONOUS. An Investigator Compelled to Give Up His Experiments.

SALEM, Mass., Oct. 20.—George L Newcombe, who has been successfully experimenting with the X ray, asserts that he has been obliged to renounce further investigation as it was poisoning him. He had experimented chiefly on his right hand.

At first the symptoms were very much the same as of ivy, or other vegetable poisioning, the sensation being one of itching, burning and smarting. skin turned a dark purplish brown, and n burning sensation increased with each successive exposure. The skin peeled off while every hair upon his hand fell out. The nails of the fingers turned purple and lost life and gave indication of falling off.

Mr. Newcombe says the light is dif fused through an aluminum window in the glass tube, being reflected upon the point of experiment by a platinum disk. It is his theory that infinite small particles of this platinum were projected upon the flesh beneath, and produced symptoms of poisoning. Mr. Newcombe thinks infrequent exposures can be made without the slightest injury.

Comes Out Squarely for the Chicago Ticket, and Gives His Reasons.

BALTIMORE, Oct. 15.-United States Senator Gorman was greeted to-night by a crowd which was limited only by the capacity of Music Hall, who came to hear him make the first political speech he has made in this city for many years. The enthusiasm was intense and Mr. Gorman was received with a perfect storm of cheers when he appeared upon the platform with United States Senator Morgan, of Alabann, who took the place of Senator Faulkner on the program, the latter being unable to attend. It is asserted that to-night's meeting was seeond only in point of numbers to that which greeted Mr. Bryan a few weeks ago in the same place. Mr. Morgan spoke briefly. Mr. Gorman said in part:

### BIRTHS AND DEATHS.

A Decision of Importance to Physicians in Regard to Keeping a Register of Such Happenings.

HOPKINSVILLE, KY., October 18.-In the Christian Circuit Court, Judge Breathitt rendered a decision last evening in the test case against 1)r, F. M. Stites, of this nounce that an all-day rally will be held eity, charged with failure to register births and deaths occurring in his practice as provided by the law. Judge Breathitt reversed the decision of the lower court, Governor Stone, of Missouri, Hon. fining Dr. Stites, on the grounds that Charles J. Bronston, of Lexington, and while the law is constitutional, the State Hon. W. J. Ramsay, elector for this dis- Auditor had not provided the County Clerk with the proper blanks to be furn-Democrats of Mason and Fleming ished doctors. Last year one hundred physicians practicing their profession in this city and county were fined \$20 and costs each for failure to register births and deaths, and the case of Dr. Stties was appealed as a test case, with the above result. The decision will be of interest to physicians of this State, as other cases are pending.

### BRYAN'S ANSWER

To the Charge That the Demoeratic Platform is Anarchistic.

He Silences Howlers by Quoting What Judge Brawn, a Distinguished Republican, Says on That Ineame Tax Decision.

audience of 8,000 or 10,000 people in the Union Driving Park at Saginaw, to cheer him on, Mr. Bryan made a vigorous speech of an honr, in which he replied with a display of considerable feeling to the charge that the Democratic platform was anarchistic.

"I am told," he said, "that some of your people are very much concerned for fear the Democrats, in their platform, have not been sufficiently considerate of the Supreme Court of the United States. Some of your people are worried because there is a plank in the Democratic platform which expresses a desire for an income tax, and which expresses a hope that the court at some future day may reconsider the decision rendered a year ago, and will permit the people of the health had been failing some time. Six United States to make those who have large incomes pay some of the expenses of the Government. [Laughter.]

"I want you to read the Democratic platform on that question, and when you have become thoroughly frightened by it I want you to read what one of the dissenting Judges said about that decision. I want to read to you what Justice Brown, who was selected from your own State, and instead of being an anarchist, or a Democrat, or a Populist, or a silver Republican, is a Republican, and, being a Republican, certainly no man qught to a cuse him of not being sufficiently polite to the Supreme Court. Let me read you what he said:

" While I have no doubt that Congre-s will find some means of surmounting the present crisis, my fear is that in some moment of national peril this decision will rise up to frustrate its will and piralyze its arm.

"Now, remember these words which I on East Third street. am about to read:

" I hop it may not prove the first step toward the submergence of the liberties of the people in a sordid despotism of wealth. [Cheers.]

"My friends, it was a Republican who said that, a Judge of the Supreme Court of the United States, and, while I am a Democrat. I indorse what that Republican Judge said, and I think, my friends, that the policy that lies behind that decision means a submergence of our liberties in a sordid despotism of wealth [great applause and cheering], and before anybody calls me an anarchist for believing that, I want him to take an anarchist's badge and pin it on Justice Brown, of the Supreme Court. [Great cheering]

"Let me read some more of what he

"As I cannot escape the conviction that the decision of the court lu this great ease is fraught with immeasurable dauger to the future of the country, and that It approaches the proportions of a national calamity, I feet it a duty to enter protest against it. [Great cheering.

"That it approaches the proportions of a national calamity, that it is fraugh with immeasurable danger to the future of the country, that is what your Repub lican Judge said, and, yet, in the presence of this language that it approaches the proportions of a national calamity we are told that we must keep silent. And who says so? The men who ought to be paying their taxes and supporting the Government and want the poor people of the United States to do it for them Not only that, but the men who condemn that decision are not honest enough to tell you that they dislike our position be- on the charge of rioting. A dispatch cause they don't want to pay their taxes. [Great applause.]

"My friends, I have not hesitated to express my opinion of the man who wants this Government to protect him and does not want to pay his share to support that Government. [Applause.] vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to I have said that the man who wants the protection of this Government, and yet is these organs in throwing off impurities in not willing to pay his share of taxes, does the blood. Electric Bitters improves the not deserve to live in a Government like ed by those who have tried it as the very this. [Great cheering.] When you find best blood purifier and nerve tonic. TWO KILLED AND TWO WOUNDED. Result of a Sunday llattle Between Whites and Illacks.

BIRMINGHAM, Ala., Oct. 20 .- A battle which occurred at Belle Ellen mines. Bibb county, Sunday, between whites and blacks, resulted in the death of two men and the wounding of two others.

Deputy Sheriff Tatum had gone to the place from Blocton Saturday with a warrant for the arrest of George Gore, a notorious negro character. Gore was found early Sunday morning in the negro quarters and immediately resisted gro quarters and immediately resisted arrest, drawing a shotgun on the officer. The latter brought his pistol into play and both men pulled the trigger of their weapons. Thrum's pistol refused to fire, but Gore's gun was discharged, the load which consisted of birdshot only, taking effect in Tatum's head, producing a severe wound ing a severe wound.

At this juncture several other negroes ran to Gore's rescue with drawn weapons. John Sullivan, a jewelry drummer from Bessemer, seeing Tatum's plight, came to his aid and opened fire. He killed Gore at the first shot. Then Tatum, though wounded, got his plstol to working and began firing. A dozen or more shots were exchanged. When the battle was over, Frank Martin, eolored, was dying and Jim Dennis, colored, badly wounded. A large number of negroes gathered and made ugly demonstrations toward Tatum and Sullivan, but the whites rallied to them. For a time it looked like wholesale bloodshed would follow, but the formidable showing of the whites overawed the negroes, who finally dispersed.

CONFINEMENT TELLS.

Jackson and Walling Kept in Their Cells Twenty Hours Dally.

CINCINNATI, Oct. 20.—The murderers of Pearl Bryan, Jackson and Walling are not bearing up very well under the strict rules of Turnkey Maurer. They are confined in their eells now 20 hours daily, without any exception. They are permitted the freedom of the corridor only from 11:30 a. m. to 3:30 p. m. Before their plot to escape was discovered they were permitted to be out of their cells all day with all the other prisoners. Since the discovery of their scheme

for getting information and sending it out through other prisoners, the pains of the jail officials to prevent their plans from working have been redonbled. Every letter and paper sent into or out of the jail from any of the prisoners, or addressed to any of them, is carefully examined, for fear that some information about their case may get to Jackson and Walling.

The two prisoners still amuse themselves playing cards. When Father Kylie or some other religious visitor calls on them they listen with great atfor getting information and sending it

## Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of siekness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article. which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
